Switchuation 2024 – Ideation Round

Submission Format
Switchuation Submission: [Team Name]

Problem Statement

Write the problem statement that you have received.

Solution

Our team came up with a solution to address this problem. We [explain the solution in detail]. We believe that our solution will be effective in [achieving the desired outcome].

Functionalities of Solution

Our solution fulfils the following required functionalities:

- [Functionality 1]
- [Functionality 2]
- [Functionality 3]

Our solution also has the following additional functionalities:

- [Functionality 1]
- [Functionality 2]
- [Functionality 3]

Differentiation from Existing Solutions

Our solution differs from existing solutions in the market in the following ways:

- [Differentiating factor 1]
- [Differentiating factor 2]
- [Differentiating factor 3]

Ideation Process

Our team followed a rigorous and iterative ideation process to arrive at this solution and it involved constant feedback and improvement.

Our ideation process consisted of several stages:

1. Research: We conducted extensive research on the problem and existing solutions in the market.
2. Ideation: We brainstormed and generated several ideas for potential solutions.
3. Refinement: We refined our solution based on feedback from users and experts in the field, and the guidance we received at the hackathon.

Team Members

Our team consists of the following members:

- [Insert team member name] - [Insert role in developing the solution]
- [Insert team member name] - [Insert role in developing the solution]
- [Insert team member name] - [Insert role in developing the solution]
- [Insert team member name] - [Insert role in developing the solution]

Each member played a vital role in developing our solution, and we are proud of what we have accomplished together.
